## LAMPING

**SOCKETS:** We offer several common socket bases that are intended for use with LED replacement lamps. Please note that fixtures specified with these sockets will have wattage restriction labels showing the wattage level noted in the chart to the left. These wattages are common maximum levels for the associated LED replacement lamp. The exact wattage, lumen output, and CCT is a function of the particular LED lamp chosen by the specifier.

**LED MODULES:** We offer fixtures with integrated LED modules. The voltage available, wattage, lumen output, and CCT are a function of the particular LED Module specified.

For **RGB** and **TUNABLE WHITE** options, please consult factory.

Hi/Lo Variable Occupancy sensors are available on certain LED Modules. Please consult factory.
