CYLINDER 5" PENDANT OPTIONS

LAMPING

SOCKETS: We offer several common socket bases that are intended for use with LED replacement lamps. Please note that fixtures specified with these sockets will have wattage restriction labels showing the wattage level noted in the chart to the left. These wattages are common maximum levels for the associated LED replacement lamp. The exact wattage, lumen output, and CCT is a function of the particular LED lamp chosen by the specifier.

For **RGB** and **TUNABLE WHITE** options, please consult factory.

Sockets	Description	# of Sockets	Maximum Watts per Socket	Total Watts (maximum)	Volts	Dimmable
LEDE26	Medium Base	1	20	20	120	Yes
LEDGU24	Twist and Lock	1	20	20	120	Yes
